Thursday, 15 May 2008

Liquid Motion Film write in with details about their new series, and recent award wins for their underwater photography:

For years, man has sought the meaning of the fishes' incredible colours. He's never truly understood, because he's always looked through human eyes. At the forefront of Marine Science this sensational premiere

unravels the mystery of underwater colour, by looking 'through the fishes eyes'.

In association with the worlds leading Research Scientists, from Internationally Acclaimed, Award-Winning Filmmakers Liquid Motion Film comes 'WATER COLOURS' - a pioneering journey of underwater discovery bringing a revolutionary understanding of the language of the fish.

For years, man has sought the meaning of the fishes' incredible colours. He's never truly understood, because he's always looked through human eyes. At the forefront of Marine Science this sensational premiere unravels the mystery of underwater colour, by looking 'through the fishes eyes'.

Screening worldwide, earning highest Awards, series 'teasers' 'FISHEYE FANTASEA', 'BEYOND THE BLUE' and 'COLOUR TALKS' are taking Film Festivals by storm. 'MERIT OF EXCELLENCE', 'PLATINUM AWARD' 'BEST OF FESTIVAL' & several times 'BEST FILM' winner 'Fisheye Fantasea' is followed by 'Beyond The Blue', a fluorescence special which immediately scooped 'SPECIAL JURY AWARD' in Belgrade, followed by 'FIRST PRIZE', 'BEST FILM' Awards in Moscow, Italy, USA, France and the UK!

Finally, premiering last weekend in France, 'Colour Talks' took the 1st Prize, BEST FILM Award at Le Festival Europeen, Strasbourg and is a Finalist at IWFF Montana, USA!. Featuring mesmerizing cinematography, sensational behaviour and phenomena new to science, forcing us to forever rethink our relationship with the oceans creatures, 'WATER COLOURS' brings the groundbreaking revelation that 'colour is the cryptic language of fish'... and the most intimate understanding of marine animals yet. At the forefront of marine science, LIQUID MOTION FILM: Marine animals, as they really are.
